Step3: Input your card details

The screenshot shows the PayPal checkout interface in a Google Chrome browser. The page title is "PayPal" and the amount to be paid is "\$13.50". There are two buttons: "Pay now" (highlighted) and "Pay Later". Below these, the heading "Pay with debit or credit card" is displayed, followed by the text "We don't share your financial details with the merchant." The form includes a "Country/Region" dropdown set to "United States", an "Email" field with "jamietanbz@outlook.com", a "Phone type" dropdown set to "Mobile" and a "Phone number" field with "+1". Below these are icons for Mastercard, American Express, Visa, and Discover. The "Card number" field is empty. The "Expiration date" and "CVV" fields are also empty. A small blue card icon is visible next to the CVV field.

Step 4: **Do not select** "Save info & create your PayPal account" if you do not wish to create PayPal account. You can click "Continue as Guest" and complete the payment

The screenshot shows the bottom section of the PayPal checkout page. A red oval highlights the "Save info & create your PayPal account" toggle switch, which is currently turned off. To the right of the toggle is a blue arrow pointing to a text box. The text box contains the instruction: "Do not select 'Save info & create your PayPal account' if you do not wish to create PayPal account." Below the toggle is a blue button labeled "Continue as Guest". At the bottom, there are links for "Have a PayPal account? Log In", "Cancel and return to merchant", and language options: "Français", "Español", "中文", and a US flag icon.
